

# *FolkCast*

*Our finger in your ear!*

*The UK's first folk music Podcast brings you the best in folk, folk-rock, singer-songwriter and roots-based music from Britain and beyond, plus interviews with the people making that music today.*

*Join Steeleye Span's own Ken Nicol and co-presenter Phil Widdows as they talk to artists including Simon Nicol, Ralph McTell and Show of Hands, and play great music that's off the mainstream radar.*

### *Just what is a Podcast?*

*The word comes from "iPod" and "broadcast", but you don't actually need an iPod to listen to a podcast. Think of it as a radio show for the Internet, but "on air" whenever the listener wants to tune in. You can even take out a free subscription to the show, using free software, and have the latest editions automatically delivered to your computer!*

*Full details of all the shows, how to listen and how to subscribe for free are available at: [www.folkcast.co.uk](http://www.folkcast.co.uk)*

FolkCast was selected as *The Times* "Podcast of the Week" on March 18 2006
